

# NEW TRAINING AVAILABLE IN Supply Chain Management

Supply Chain Management (SCM) is a critical function in any company that brings products and services to market. SPC's **LINCS Supply Chain Management Program** will introduce you to the fundamental aspects of the SCM industry and prepare you for a multitude of SCM positions across various functions. After completing each non-credit course, you will have the opportunity to sit for a certification exam offered and certified by The Council for Supply Chain Management Professionals (CSCMP).

## SPC offers the following entry to mid-level, non-credit courses:

- Supply Chain Management Principles
- Customer Service Operations
- Transportation Operations
- Warehousing Operations
- Demand Planning
- Inventory Management
- Manufacturing & Service Operations
- Supply Management & Procurement
