TIPS FOR SUCCESS: The following tips will assist you to be successful in the program.

- **Live the language.** Make and take opportunities to use the language in natural communication in and outside the class during your stay in Spain. Search outside sources to improve your language skills (newspapers, magazines, books, radio, television, etc...)
- **Think the language.** Avoid heavy reliance on a dictionary and try not to translate everything word for word. Recognize the fact that grammar rules will be different. Learn the difference along with the similarities and your understanding of how the language works will increase tenfold.
- **Guess the language.** When in doubt, try to guess new words in context and don't be afraid to make mistakes. Take constant advantage of cognates to understand new words and to comprehend new paragraphs.
- **Ask about the language.** If needed, seek extra help from course instructor, SPC professors, families, and friends in Spain.
- **Stay open minded to the language and the culture.** The best tool for learning a language at any level is a good attitude. Understanding the culture helps with language acquisition.
- **Set realistic goals.** Learning another language is not an easy task. It takes time, practice, and dedication. Go into the program with the goal of increasing your communication skills, but avoid setting those goals very high.
- **Enjoy!** Learning another language is an adventure.
